WORK EXPERIENCE

Resume Worded, New York, NY   09/2015 – Present
Augmented reality startup with 50+ employees and $100m+ annual revenue

Senior Data Scientist

- Supervised a 10-man team that designed an AI-powered system, which cut customer churn by 66%, adding $455K to quarterly earnings.
- Designed a recommendation engine for 20+ HNIs using collaborative filtering methods with Pandas, Scikit Learn, TensorFlow, and Keras.
- Optimized conversion rates for landing pages by implementing A/B tests, which grew sales profits within 24+ weeks of implementation.
- Created an algo to predict when clients will make most purchases based on behavioral data; this technique helped increase yearly online sales by 94%.

Polyhire, London, United Kingdom   10/2012 – 08/2015
Provides quality assurance and control testing for global markets

Data Center Manager

- Supervised various staff members, including IT and security officers, engineers, utility technicians, and suppliers, in managing the company's facilities.
- Coordinated the construction process of data centers in remote geographies by overhauling the bidding process for 50+ extremely experienced vendors; completed the project 96 hours ahead of schedule.
- Managed monthly operations of a large data center and maintained a 100% uptime while ensuring personnel safety, security, and data integrity.

Growthsi, London, United Kingdom   07/2010 – 09/2012
Career training and membership SaaS with 150,000 paying users

SQL Programmer

- Designed a spend reporting solution using ASP.NET/MS SQL 2000 to provide 20+ executives with user-customizable reports based on detailed accounts payable data.
- Utilized proper design patterns and SOLID principles to rearrange a codebase with 6500+ lines of spaghetti code and shoddy OOP.
- Developed an open-source SQL parser, parsing trees, syntax analysis, and run-time error detection that attracted 720+ weekly downloads on SourceForge.

Virtualization Engineer, ABC Company, London, United Kingdom   11/2008 – 12/2009
